

Introduction

China Shenjiang Valve Co., Ltd, built in Nov 1979, is a shareholding enterprise with valves' design, manufacture and sale combined together. It is located at Qiligang Industrial Zone, bordering on the East China Sea, & standing by "Yandang Mountain" and "Oujiang River Port".

It is a member factory of vendor list approved by China Petrochemical Company, first class networks supplier of China Oil and Gas Group, and a member of China Valve Industrial Association. It has gained a number of honorable titles for 8 years in succession, e.g., "City's Industrial Advanced Enterprise", "City's Key Enterprise", "Advanced Enterprise of Generating Foreign Exchange", & "Big Taxpayer" "Province's AAA Credit Enterprise", etc.

Over 20 years of research & cooperation with customers, the Company developed its main product line: 6 series of Gate, Ball, Plug, Check, Globe, and Butterfly Valves, which are available with the standards of GB, SNSI, API, DIN, BS & JIS, etc. The sizes range comes to 72" (DN1800), the max pressure rating ups to 2500 LB (PN320), the highest temperature ups to 630oC, & the lowest temperature downs to -196oC. The valves can be made of normal carbon steel WCB, A105, low alloy steel LCB, LCC, and alloy steel WC6, WC9, C5 as well as stainless steel 304, 316, CF8, CF8M, CF3 & CF3M, etc. After continuously technical renovation and updated, the products' construction, performance and quality have reached to global level, and have been recognized by the customers local and abroad.

In order to guarantee product quality, the Company has put a lot of funds to complete and perfect test and inspection means such as photography, magnetic particle, ultra-sonic, penetration, metallographic, physical and chemical analysis tests, & pressure test. It has been carried out a very strictly quality control in the whole process, the product quality attained 100% guarantee. The Company is obtained ISO 9002, licensed by API-6D Monogram, and ISO 9001 certification issued by NDV of Norway. In March 2002, the Company was recognized by CE of EU.
